

Pathology licences

Updated 02 July 2009

This document provides an overview of licences issued to establishments which applied for a pathology licence.

A licence can fall into one of three categories depending on its current status: “Licensed establishments”, “Licence offer issued” or “Licence application in progress”.

- “Licensed establishments” denotes those establishments that are deemed licensed by the HTA.
- “Licence offer issued” indicates that an offer to the establishment for a final licence has been made.
- “Licence application in progress” means that the establishment has submitted a licence application. The establishment’s compliance is currently being evaluated and a final decision about the licence will be made.

Details about a licence include the *establishment*, the *address* where the licensed activities are to take place, the Designated Individual (*DI*) and the *Licence Holder* (either corporate or personal). The field “establishment” in some instances does not contain details about the department in which the activities are to take place, which may be only a part of the establishment denoted in the field.

Information is also provided about which activities the particular licence includes:

- *PM*: The making of a pathology examination
- *Removal*: The removal from the body of a deceased person (otherwise than in the course of carrying out an anatomical examination or making a post mortem) of relevant material of which the body consists or which it contains, for use for a Scheduled Purpose other than transplantation
- *Storage*: The storage of the body of a deceased person, or relevant material which has come from a human body, for use for a Scheduled Purpose

A “Yes” in the corresponding column indicates that the establishment is allowed to undertake the specified activity.

Licensed establishments

(228 licences)

Establishment	Address	DI	Licence Holder	PM	Removal	Storage
(ROAR) Forensics	Malvern Hills Science Park, Geraldine Road, Malvern, WR14 3SZ	Dr Simon Elliott	Forensics Ltd	No	No	Yes
