Request

To whom it may concern,

I am submitting the following request under the Freedom of Information Act 2000 to the Human Tissue Authority (HTA).

I am seeking information relating to how the Human Tissue Act 2004 and HTA regulatory framework apply to the removal, storage, and use of human brain tissue following neurosurgical procedures.

Please provide the following:

- 1. Any inspection findings, recurring themes, or recommendations from HTA inspections (from 2019 to present) that reference neurosurgery, brain tissue, or consent for diagnostic tissue storage/use.*
- 2. The number of adverse events, complaints or concerns reported to the HTA since 2019 that relate to consent, storage, or use of diagnostic surgical tissue (if available, please categorise where possible by issue type).*
- 3. Copies of any HTA-issued communications (e.g., circulars, sector updates or briefing notes since 2019) relating to storage, consent or secondary use of diagnostic surgical tissue.*

Please provide the information electronically.

If any part of this request is likely to exceed the FOI time or cost limit, please advise how it may be refined while preserving the core intent of the request.

Thank you for your assistance. I look forward to your response.
Kind regards,

[REDACTED]
