Question	Answer	Additional Information
1) Does your organisation keep an incident log of cyber attacks?	Yes	Our firewall records attempts (e.g. for port scanning). We also raise an internal incident report on specific attacks.
2) How many cyber attacks - attempted and successful - were recorded against your organisation in the last three financial years (i.e. 2014/15, 2015/16, 2016/17)?	1	2016 - One laptop was infected with ransomware
3) Where cyber attacks were successful, what kind and amount of data, if any, was lost or stolen? Was it confidential? For each case, please confirm:	0	No data was lost or stolen as a result of this attack
4) The type of attack (e.g. ransomware, denial of service etc.	1	Ransomware
5) What demand, for example a Bitcoin payment, was made to resolve the attack? Did your organisation comply?	1	Bitcoin was requested, but the HTA did not comply with the request
6) Whether the attack was reported to police or other responsible authority? To the best of your knowledge, was the attacker traced/convicted?	No	Police were not contacted as infection was due to staff member visiting a particular infected website i.e. it was not an incoming attack targeting the HTA specifically.
